# TRINITY TRIBUNE

## FROM THE DEPUTY PRINCIPAL

***"And we know that in all things God works for the good to those who love him, who have called according to his purpose."*** Romans 8:28

This week has been an exciting week as our science team has worked to bring our students an amazing Science Week full of inquiry and interesting science-based fun.

Our Kindy students were also treated to a visit from a fire truck where they got to learn about the fire services in our region and sound a fire truck siren over and over!

On Wednesday, 2 September from 5:00pm - 7:00pm we will be showcasing the extensive talents our students have through displays from all our curriculum areas, various fun activities in arts, PE, technology and of course our traditional and much loved French Café, at our Trinity Twilight Showcase, so put a reminder on your calendars, spread the word and make sure you're there to enjoy all the fun, excitement and experience that our Twilight Showcase event promises to be.

Our Year 1 students will also be taking part in a Queensland Fire Service Fire Safety Education program this coming Monday, as part of their last few weeks of studying fire safety in classes. Undoubtedly the Fire Truck sirens will ring out over Trinity College again on Monday.

Our heartfelt gratitude continues to God for such dedicated and faithful teachers leading, teaching and guiding our students in all we do and our families for their continued partnership in trust and support for our college.

May God richly bless your lives and families beyond measure.

***"And now these three things remain: faith, hope and love. But the greatest of these is love."***

1 Corinthians 13:13

## SCIENCE WEEK

## KINDY - FIRE TRUCK VISIT

On Wednesday, 26 August, we had Station Officer Gavin and Firefighter Kieran visit our Kindy. They talked to the children about different kinds of Fire Emergencies and what to do in different fire situations. They showed the children the protective clothes and equipment they wear and gave the children a chance to touch and feel it. Milani demonstrated the correct way to "Go Down Low and Go, Go Go" and Isabella showed us how to "Stop, Drop, and Roll". The children did very well remembering the number to call in an emergency and was very interested in the radios of the fire fighters. The children then had the opportunity to ask questions before going out to have a look at the fire truck and having a turn to spray the hose. We also had some Heron families join us for the visit. The big highlight was of course hearing the siren and seeing the blue and red lights as the fire truck drove off.
